Simple Agreement for Future Tokens (SAFT)

This SAFT (the “Agreement”) is entered into as of _____ by and between:

Issuer: CoArt UAB (Number 305222036), a Lithuanian company, with its principal office at LT-01114, Perkunkiemio g. 13-9, Vilnius, Lithuania (“Company”);

Purchaser:

- Name:
- Surname:
- Address:
- Email:

1. Background / Recitals

WHEREAS, the Company is offering fractionalized ownership of the physical **Fabergé Egg (the Egg)** through the issuance of **FCC (Fractional Crypto Certificate of the Egg)** crypto-fractions **EGGf** represented as digital tokens on the blockchain;

WHEREAS, the Company has divided the Egg into **100,000,000 fractions EGGf**, allowing Purchasers to acquire these fractions as digital assets, with the Egg securely stored in a high-security freeport vault;

WHEREAS, the ownership of purchased fractions will be displayed in Purchasers’ wallets but remain **non-transferable until the completion of the full auction** of the remaining 90,000,000 EGGf fractions, expected by **25th December 2025**;

WHEREAS, the Company will make the **EGGf** fractions available for purchase via the **CoArt Marketplace** and plans to enable trading after the vesting/lock-in period;

NOW, THEREFORE, in consideration of the mutual promises and covenants set forth herein, the parties agree as follows:

2. Amount and Payment

The Purchaser agrees to pay the Company the amount of _____ **USD** (the “Purchase Amount”) in exchange for the right to receive EGGf fractions of the FCC of the Egg (the “Tokens”), subject to the terms set forth herein.

- **Phase 1:** First 3,000,000 EGGf fractions at $0.03 each (66% discount).
- **Phase 2:** Next 7,000,000 EGGf fractions at $0.09 each (no discount).

Note: All funds paid by the Purchaser under this SAFT are **final and non-refundable**.
The Purchaser acknowledges that they **assume all risks** associated with this purchase, and the Company is not acting as a deposit-taker or financial intermediary.

3. Rights of the Purchaser

3.1. Right to Future Tokens (FCC)

By entering into this SAFT, the Purchaser acquires a **conditional contractual right** to receive **FCC (Fractional Crypto Certificate of the EGG)** tokens upon the occurrence of the Token Generation Event ("TGE").

This means that, as of the date of signing, the Purchaser does not yet hold FCC tokens, but holds a **legally binding promise from the Company** to deliver them once the conditions set forth in this Agreement are satisfied - including:

- successful completion of the TGE,
- the Purchaser's compliance with KYC/AML procedures as **conducted by the payment system processing the funds** to the Company,
- and other applicable regulatory or operational requirements.

3.2. Non-Ownership Prior to TGE

The Purchaser does not obtain any legal ownership, title, or control over the Egg or EGGf fractions thereof prior to the issuance of Tokens.
Any rights to dividends, profits, voting, or governance are expressly excluded; the SAFT only provides a **future claim to the Tokens**.

3.3. Conditional Claim

The Purchaser's claim is **contingent upon the TGE** and any applicable vesting schedule.
No refunds or cancellations are permitted after payment has been made.

3.4. Economic Interest via Tokens

Upon issuance, each Token represents a **digital, blockchain-based EGGf fraction of the Egg**, providing the Purchaser with a **claim to future ownership rights as encoded in the Token**, including the ability to view, transfer, or trade the fraction after vesting.

3.5. Resale and Auction Rights

After the TGE and completion of the vesting/lock-in period, the Purchaser may:

1. **Participate in an online auction** conducted or assisted by the Token Issuer, where Tokens may be offered for sale to other fractional owners or market participants; or
2. **Sell or transfer Tokens independently**, including via the **CoArt Marketplace**, any other marketplace, or by private sale, in compliance with applicable law.

The **CoArt Marketplace** functions as a facilitator for fractional ownership transactions, connecting buyers and sellers of art-related tokens. It does **not restrict the Purchaser's right** to transfer Tokens to another party or by other means.

3.6. Limitations of Rights

Tokens are **not securities, shares, or collective investment units**, and do not confer profits, dividends, voting rights, or other corporate rights.

3.7. Clarification of Purpose

For the avoidance of doubt, the restriction on resale applies solely to this Agreement (SAFT) prior to the Token Generation Event.
Following the issuance and vesting of Tokens, the Purchaser may freely hold, transfer, or sell such Tokens in accordance with applicable law and platform rules.

4. Events

4.1 Token Generation Event (TGE)

The **TGE** is expected around **25th December 2025**, when EGGf fractions and the Egg itself will be displayed on the CoArt Marketplace.
Tokens delivered to the Purchaser = Purchase Amount ÷ (Price × (1 – Discount)).
Example: $15,000 × 66% discount → ~735,294 EGGf fractions.

Vesting / Lock-in: Purchased fractions will be frozen and non-transferable until the completion of the auction of the remaining 90,000,000 EGGf fractions (expected by **25th December 2025**).

4.2 Dissolution Event

If a **Dissolution Event** occurs before the TGE, the Company may return funds **only to the extent allowed by available assets**, with Phase 1 purchases prioritized.
However, Purchasers acknowledge that no legal or regulatory guarantee exists, and funds may not be returned.

5. Definitions

Token Generation Event (TGE):
The first public sale of FCC fractions by the Company.

Dissolution Event:
Liquidation, dissolution, bankruptcy, or winding up of the Company.

EGGf (crypto fraction of the Fractional Crypto Certificate of the Egg):
A blockchain-based **digital collectible token** referencing one (1) symbolic fractional unit of the physical Fabergé Egg (the "Egg").
FCCs are digital representations of association with the artwork's provenance and concept.

They do **not constitute shares, securities, or collective investment units**, and confer no legal ownership, redemption, voting, or profit rights.

FCCs are non-redeemable and non-convertible to fiat or any underlying asset, and may only be transferred or traded in accordance with applicable laws and platform rules.

6. Representations and Warranties

Purchaser represents that:

- They are a professional/qualified purchaser under EU law.
- They understand and accept all risks associated with this Agreement and the Tokens, including the possibility of total loss.
- The purchase is for personal use only, not for resale or distribution prior to the TGE.
- They will comply with KYC/AML requirements as administered by the payment system used to process payments to the Company.
- They acknowledge that the Purchase Amount is **non-refundable** and will not be held as a deposit or escrow.

Company represents that:

- It is duly organized under Lithuanian law and authorized to enter into this Agreement.
- It will comply with applicable law and may assign rights to the Token Issuer entity without the Purchaser's consent.

7. Force Majeure

The Company shall not be liable for any delay or failure to perform due to circumstances beyond its control, including but not limited to:

- Natural disasters, fires, floods, or acts of God;
- War, terrorism, or civil unrest;
- Regulatory or legal restrictions;
- Blockchain or network failures, smart contract bugs, or cyberattacks;
- Pandemics or governmental restrictions;
- Banking or payment processor insolvencies;
- Other unforeseeable events prevent performance.

If such an event continues for more than 180 days, either party may terminate this Agreement, subject to the availability of funds for refunds.

8. Disclaimers

1. **No Guarantee of Profit or Appreciation.**
2. **Not a Security.** EGGf fractions do not represent equity or collective investment rights.
3. **Regulatory Risk.** No guarantee of compliance outside permitted jurisdictions.
4. **Technology Risk.** Blockchain or smart contract malfunction risk is borne by

Purchaser.

5. **Market/Liquidity Risk.** No guaranteed secondary market.
6. **Tax Liability.** Purchaser bears full responsibility for taxes.
7. **Forward-Looking Statements.** All projections are non-binding.
8. **Limitation of Liability.** Company's total liability is limited to the Purchase Amount.
9. **Non-Refundable Purchase.** Funds paid by Purchasers are final and do not create deposit, escrow, or other regulated financial obligations.

9. Miscellaneous

- **Governing Law:** Lithuania; after assignment, law of Token Issuer's jurisdiction applies.
- **Notices:** Must be in writing.
- **Amendments:** Only by written mutual agreement.
- **Electronic Signatures:** Legally binding.

10. Signatures

In the name of the Company:

In the name of the Purchaser:

Exhibit A – Token Terms

Phase	Fractions Available	Price	Discount / Bonus	Vesting / Lock-in
Phase 1	3,000,000	$0.03	66%	Until completion of auction (expected Christmas)
Phase 2	7,000,000	$0.09	0%	Until completion of auction (expected Christmas)

Exhibit B – Token Description

- Name: Egg-Fractions (crypto-fractions of Fabergé Egg FCC)
- Symbol: EGGf
- Blockchain: Symbol Blockchain network
- Token Standard: Symbol Mosaic (NFT standard)
- Use Case: Digital fractional ownership of the physical Fabergé Egg, viewable, transferable, and tradeable via the CoArt Marketplace or other marketplaces after vesting.
- Resale Options: Purchasers may sell Tokens via **Token Issuer-assisted online auctions** or independently on **CoArt Marketplace** or other platforms after vesting.
